ENTIRELY OVERLOOKED

While our twilight contemporary is having fits because the grass is not growing as it should at the place where the state well was bored, it views with entire complacency the fact that the \$200.00 taken from the School Fund by a Republican set of state officials has never been returned.

"True we did steal that money from the School Fund and we never put it back, but we defy anybody to show that a Republican administration ever smashed an iron gate off the Capitol square," says the News.

The papers which pay so much attention to small happenings, because it is built that way, has never explained to the public now it came about that under a Republican administration \$80,000 in new silver dollars was coined at the Mint in this city without the consent of the U. S. Government from silver bullion worth 60 cents an ounce and traded off for gold twenty pieces in the State Treasury.

The parties who engineered the deal about doubled their money turning the United States Mint into a counterfit joint.

"We admit that happened," says the News, "but no acting Governor of our party ever signed a proclamation in Reno."

Further comment on these lines appears superfluous.

The News labors under the impression that Acting Governor Allen arbitrarily closed the banks. If the News man will read the proclamation a little more carefully he will discover that he merely recommended it.

Any bank that decided could remain open. Some did.

Senator and Mrs. Brougher and Mrs. H. C. Brougher returned from the bay yesterday morning. Senator Brougher had to work hard ever since the catastrophe. He was a member of the Elks and Tonopah relief committees.

The Ophir mine shipped a carload of ore to the smelters yesterday and more will follow. It will take more than the destruction of San Francisco to keep the old Comstock down.

The Carson River is steadily rising but there is no danger as all property along the banks is on high land. Empire the new sea port town from all appearances.

John Edwards, one of the men who help up the Oberon saloon in Reno, has been bound over to appear before the grand jury, with bonds fixed at \$2,000.

Shakesperian Lecture

The lecture given last evening by Dr. Cushman at the Methodist church was well attended as many members of the Leisure Hour Club and others interested in this subject were present. The discourse was on Shakespear in England. This subject was pleasing and intelligently handled by the learned gentleman and enjoyed by all.

People You Like to Meet.

Are found on the through trains of the Santa Fe Route. First-class travel is attracted to first class roads. The Santa Fe Route is a first-class road.

It is one of the three largest railway systems in the world. Present mileage, 7,734 miles.

It extends from Lake Michigan to the Pacific Ocean and Gulf of Mexico, reaching with its own rails Chicago, Kansas City, Denver, Fort Worth, Galveston, El Paso, Los Angeles and San Francisco.

It runs the finest and fastest transcontinental train, the California Limited.

Its meal service, managed by Mr. Fred Harvey, is the best in the world. Its track is rock ballasted and laid throughout with heavy steel rails.

On such a road as this long distance records are frequently shattered, the latest being that of the "Scotty Special" Los Angeles to Chicago, 2,265 miles in less than 45 hours.

Every comfort and luxury desired by modern travelers.

May we sell you a ticket over the Santa Fe?
